EDUCATION

Haldia Institute of Technology

B.Tech in Computer Science

Bhavans N.S.C.B Vidyaniketan

Senior Secondary/Class XII (Percentage: 89%)

Haldia, West Bengal

Sep. 2025 – Sep. 2029

Azad Hind Nagar , haldia

April. 2023 – Feb. 2025

PROJECTS

SETU – Bihar Tourism Marketplace | *React, TypeScript, Node.js, Express, Prisma*

- Developed a full-stack tourism marketplace connecting tourists with local vendors, homestays, guides, artisans, and experience providers across Bihar.
- Implemented role-based authentication, AI travel companion, interactive maps, event discovery, vendor marketplace, messaging, bookings, payments, and bilingual support.

Meghdrishti – GenAI Satellite Cloud Removal | *Python, PyTorch, GANs, Transformers*

- Developed a GenAI-based system for cloud removal and surface reconstruction in LISS-IV satellite imagery for the ISRO Bharatiya Antariksh Hackathon 2026.
- Combined SPANet, Swin Transformer bottleneck blocks, spatial attention, cloud detection, and Multi-Scale PatchGAN for image reconstruction.

Enterprise AI Interviewer | *Python, FastAPI, Gemini, Groq, Docker*

- Built an adaptive multi-turn AI interviewer that generates personalized technical questions based on a candidate's learning history and dynamically follows up on responses.
- Implemented curriculum-grounded reasoning, multi-factor evaluation, LLM fallback, session management, rate limiting, PDF assessment generation, and Docker deployment.

UIDAI Aadhaar Anomaly & Fraud Detection | *Python, Scikit-learn, Pandas*

- Developed an unsupervised machine learning system using Isolation Forest to detect suspicious patterns across biometric, demographic, and enrollment Aadhaar datasets.
- Engineered behavioral ratios and generated risk-based anomaly alerts to identify potentially fraudulent or abnormal enrollment centers.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, TypeScript, SQL, HTML, CSS

AI/ML: PyTorch, Scikit-learn, OpenCV, YOLOv8, Pandas, NumPy

Web: React.js, Node.js, Express.js, FastAPI, Tailwind CSS, Streamlit

Tools: Git, GitHub, VS Code, Jupyter, Google Colab, Docker

Cloud & APIs: Google Cloud, REST APIs, Gemini API, Groq API

NON-TECHNICAL SKILLS

Team Collaboration, Communication, Problem Solving, Leadership, Presentation Skills

ACHIEVEMENTS

- **Pre-Finalist – Bharatiya Antariksh Hackathon 2026 (ISRO):** Built **Meghdrishti**, a GAN-based satellite cloud removal and reconstruction system as part of **Team Trinova**.
- **Finalist – Vibecodethon (AB Talks):** Built an adaptive AI technical interview agent as part of **Team Vector**.
- **Finalist – Tejas India Hackathon:** Built **SETU**, a Bihar tourism marketplace connecting tourists with local vendors and services, as part of **Team 4 Loops**.
